

The Bennett Project

Connecting Families through the
pediatric cancer journey

in a time of stress and unknown it is heartwarming to feel loved and supported from so many people that we have never even met. It made such a big impact for our warrior and her sibling in a year that has been anything but normal.

~ Kaitlyn, Sydney's mom

OUR MISSION

The Bennett Project stands with St. Louis families facing pediatric cancer, offering direct financial assistance and social support. We recognize that only those who have walked this journey can truly understand its unique challenges. That's why we prioritize connecting and uniting our families. We support our families at every stage of the pediatric journey, from newly diagnosed and in treatment to post-treatment and bereaved families.

They way the Bennett project helps support us even after treatment is amazing. It feels like most forget about families after treatment, it still hurts just as much when we think about it. The Bennett project is an outstanding organization and I couldn't be happier with the support they offer.
